

## **Division of Fire Quarterly Report**

Oct-Dec

Members of Council,

In the fourth quarter the Fire Department made 319 EMS runs and 83 Fire runs. Our personnel trained 169 hours. Installed 17 car seats, inspected 58 businesses and apartments, and held 15 fire prevention activities.

The Fire Department maintains all of our own vehicles and equipment. Weekly checks are done on all vehicles; breathing apparatus were tested and repaired. Saws, smoke ejectors, and extrication equipment were serviced and inspected. Annual fire hose testing was completed. Daily checks are done on both squads, and fire apparatus. The personnel clean and disinfect the firehouse daily. The fire department also maintains the fuel log for city hall and measures the fuel levels several times a month.

The fire department serviced painted every hydrant in the city (241).

In 2015 we are going to a new billing program called Safety Pad using tablets. This will improve patient care, provide better statics, we will be completely paperless, it allow our medical director to quality control our runs over the internet, and provide the hospitals with access to EKG's.

Respectfully Submitted,

  
Chief Robert Klein
