

Public Works & Utilities Committee Meeting  
Tuesday August 24<sup>th</sup>, 2015

Members Present: Jim Sunderhaus, Chairman, Amy Richter, Leslie Roden, Kitty Zech (Excused). Others present: Dennis Dinkelacker, Bill Clark, Jim Martin & Debbie Slaughter.

Meeting was called to order by Chairman Sunderhaus @ 6:46 pm. The purpose of the meeting was to discuss the transfer of funds (\$6000.00) from the General Contingency Fund to the Energy Efficiency fund for the purpose of paying recycling fees. These funds were approved as part of the 2015 budget & only needed to be transferred for payment purposes.

A lively discussion took place regarding the merits of recycling or the lack thereof. It was especially important for the committee to know, for next years budget, what the costs are for having this service. We must know if it is cost neutral or cost effective so that we can make an informed decision & discuss alternatives if needed. Committee recommends that council approve the transfer as it is within the approved budget.

Chairman Sunderhaus will request that the Auditor provide up-to-date & thorough information regarding the recycling program as we prepare next years budget.

Respectfully Submitted,

Jim Sunderhaus, Chair

  
Jim Sunderhaus, Chairman

Amy Richter

  
Leslie Roden
