Mr. Perkins had come to the city council meeting on June 17th, 2014, with a petition of concerned businesses, residents and others regarding groups of people standing outside businesses smoking. This writer scheduled this meeting to discuss the matter and invited Mr. Perkins. Mr. Perkins was unable to attend due to a prior commitment, as he relayed in a phone to this writer. Mr. Perkins wanted to know if a law could be established regarding groups of smokers smoking in front of businesses be prohibited, as he and the petitioners believe that having to walk through the crowd of smokers is a health hazard. Cigarette butts thrown on the ground by said smokers was also discussed.

Meeting was called to order at 7:30 pm with Bill Clark conveying the information of a phone call with Mr. Gary Perkins (as detailed above).

After much discussion, it was decided by a consensus of those present that education is the best route to proceed at this time. Mrs. Richter, as the rep for CWCA, is willing to convey the issue to CWCA at one of their upcoming meetings. This writer will talk with the Entertainment District Bars to let them know of the concern of the petitioners.
